

EQUITABLE TRANSPORTATION

Transportation system disparities experienced by Black, Indigenous and people of color and people with low incomes, are eliminated. The disproportionate barriers that people of color, people who speak limited English, people with low incomes, people with disabilities, older adults, youth and other marginalized communities face in meeting their travel needs are removed.

CLIMATE ACTION AND RESILIENCE

People, communities and ecosystems are protected, healthier and more resilient. Carbon emissions and other pollution are substantially reduced as more people travel by transit, walking and bicycling. People travel shorter distances to get where they need to go.

SAFE SYSTEM

Traffic deaths and serious crashes are eliminated, and all people are safe and secure when traveling in the region.

MOBILITY OPTIONS

People and businesses can reach the jobs, goods, services and opportunities they need by well-connected, low-carbon travel options that are safe, affordable, convenient, reliable, efficient, accessible, and welcoming.

THRIVING ECONOMY

Centers, ports, industrial areas, employment areas, and other regional destinations are accessible through a variety of multimodal connections that help people, communities, and businesses thrive and prosper.

2023 Regional Transportation Plan Goals

Adopted by the Joint Policy Advisory Committee on Transportation (JPACT) and Metro Council in November 2023, with support from the Metro Policy Advisory Committee (MPAC).
