ISSUE STATEMENT

The Portland Streetcar Montgomery Park Extension Project will extend the existing Portland Streetcar North-South (NS) Line 0.65 miles one-way (1.3 miles round trip) from its existing terminus at NW 26th Avenue and NW Northrup Street to a new terminus at NW 26th Avenue and NW Wilson Street near Montgomery Park in Northwest Portland. The project will also rehabilitate NW 23rd Avenue between NW Vaughn and NW Lovejoy streets including streetscape improvements, as well as extend multimodal streets in the project area to support streetcar operations.

On December 11, 2024, the Portland City Council adopted Resolution No. 37692 to adopt the Locally Preferred Alternative for the Montgomery Park Streetcar Transit Project.

The recommended Locally Preferred Alternative for high capacity transit to the Montgomery Park Area is streetcar transit with stations at the locations indicated on the attached map, operating as a .65 one-way route mile extension of the existing Portland Streetcar North-South (NS) Line from its existing terminus at NW 23rd Avenue and NW Northrup Street to a new terminus at NW 26th Avenue and NW Wilson Street near the Montgomery Park building in Northwest Portland. This extension will allow the NS Line to operate between the Montgomery Park Building and the South Waterfront. The route extension will operate on NW 23rd Avenue, as well as on a new one-way parallel couplet using NW Roosevelt Street, NW 26th Avenue, and NW Wilson Street. The LPA is reflected in Exhibit A to Resolution No. 25-5505.

On June 25, 2025, the Metro Policy Advisory Committee (MPAC) recommended that Metro Council approve Resolution No. 25-5505, as recommended by the Metro Technical Advisory Committee (MTAC) on June 18, 2025. On June 26, 2025, the Joint Policy Advisory Committee on Transportation (JPACT) approved Resolution No. 25-5505 and submitted to Metro Council for approval, as recommended by the Transportation Policy Alternatives Committee (TPAC) on June 6, 2025.

Approval of the resolution endorses the Montgomery Park Streetcar Extension Locally Preferred Alternative (LPA) as recommended by JPACT and MPAC and directs staff to prepare amendments to the 2023 Regional Transportation Plan to reflect the LPA.

ACTION REQUESTED

Approve Resolution No. 25-5505 as recommended by JPACT and MPAC.

IDENTIFIED POLICY OUTCOMES

The project will support dense, equitable transit-oriented development west of US-30 between NW Nicolai and NW Vaughn streets, where predominantly vacant, low-density industrial land recently underwent land use changes to employment- and housing-focused mixed uses. The project will also support several indirect public benefits for the area, including new affordable housing, new middle-wage jobs onsite, a new public park, affordable commercial opportunities, and the commemoration of York—enslaved member of the Lewis and Clark Expedition who was critical to its success—through public art; these ancillary benefits are captured in a Public Benefits Agreement (PBA) between the City of Portland, property owners in the area, and Portland Streetcar, Inc.

In addition to spurring transit-oriented development, the project is intended to serve as a critical single occupancy vehicle (SOV) trip demand mitigation tool as the area redevelops over time. As such, it also includes improvements to the pedestrian and bicycle network to support non-driving options within, to, from, and through the new district.

The Montgomery Park Streetcar Extension has been identified by the region as a top priority for transit investment. It is called out in multiple adopted plans including the 2009 Metro Regional High Capacity Transit System (HCT) Plan, the 2018 Regional Transit Strategy, the 2023 Regional Transportation Plan (RTP), and the 2023 High Capacity Transit Strategy, which designates the Montgomery Park Streetcar Extension as a Tier 1: near-term HCT corridor, the highest priority for HCT investment in our region.

Project outcomes identified in the RTP are improved travel connecting with the existing streetcar network, as well as necessary safety and accessibility improvements, including rehabilitation of NW 23rd Avenue and new multimodal street connections on NW Roosevelt Street, NW Wilson Street, and NW 26th Avenue. This project also supports land use changes and housing development, including new affordable housing units, as identified in the Montgomery Park Area Plan, which was also adopted by Portland City Council in December 2024.

POLICY OPTIONS FOR COUNCIL TO CONSIDER

1. Approve Resolution No. 25-5505 as recommended by JPACT and MPAC.
2. Do not approve Resolution No. 25-5505.

JPACT and Metro Council endorsement of the Locally Preferred Alternative will demonstrate regional consensus on the project parameters. Endorsement of the LPA is a necessary step to a future adoption of the LPA into the financially constrained RTP project list, which is required to complete the Project Development phase of the Capital Investment Grant (CIG) program and be eligible to garner CIG discretionary funding. Metro Council and JPACT are anticipated to consider adoption of the LPA into the 2023 RTP in March 2026 as part of a package of RTP amendments which includes two other Tier 1 projects with recent LPA recommendations: Tualatin Valley Highway Transit Project and the 82nd Avenue Transit Project.

RECOMMENDED ACTION

Approve Resolution No. 25-5505 as recommended by JPACT and MPAC. Approval of the resolution endorses the Locally Preferred Alternative adopted by the City of Portland and directs staff to prepare amendments to the 2023 Regional Transportation Plan to reflect the Montgomery Park Streetcar Extension LPA for consideration by JPACT and the Metro Council in 2026.

STRATEGIC CONTEXT & FRAMING COUNCIL DISCUSSION

The LPA advances Metro’s 2040 Growth Concept and Regional Transportation Plan by connecting the Montgomery Park area in Northwest Portland to the existing streetcar network in the Portland Central City. It also complements land use and housing actions identified in the Montgomery Park Area Plan adopted by Portland City Council in December 2024 and supports changes Metro Council adopted to update the Urban Growth Management Functional Plan (UGMFP) “Title 4 Industrial and Other Employment Areas” Map in January 2025 through Ordinance 25-1522.

The project advances multiple objectives by promoting walkable communities; improving access to jobs, schools, retail places and other community places along the route; increasing transportation choices including active transportation and better access to transit; regional mobility; and safety. The project will support the development of over 3000 new housing units, over 4000 new jobs, and approximately 3000 new daily transit riders.

KNOWN OPPOSITION

Public input and partner endorsements demonstrate support for this LPA.

There were two opponents to the adoption of the Montgomery Park Area Plan:

- a. The Northwest Industrial Business Association opposed the adoption of the Montgomery Park Area Plan (MPAP) because of impacts to what was industrial land and potential impacts to low-barrier-to-entry middle wage jobs. The MPAP worked to address this by limiting land use changes to the area of greatest potential change and tying the development in the area to

on-site middle-wage jobs in a variety of fields (target requirements with a fee charged if not met as agreed in the adopted Public Benefits Agreement).

- b. The Northwest District Neighborhood Association (NWDA) did not outright oppose the project, but opposed the adoption of the overall Montgomery Park Area Plan because they felt the plan did not respond effectively enough to neighborhood input or concerns. The NWDA was critical to the MPAP's process, having representation on the Project Working Group and being part of dozens of conversations over the course of the planning process. A key issue with the project itself for the NWDA is the final alignment; while members varied in their perspective on the best route, there was concern expressed around parking and traffic impacts (which the project and plan sought to address by working to maintain as much parking as possible in the project area and minimizing the number of stations on 23rd Ave).

Extensive technical analysis was conducted to understand the benefits and tradeoffs of different LPA components. The analysis was shared with community members for feedback. Public engagement has been extensive and coordinated with outreach for the Montgomery Park Area Plan, which aims to transition the area from a somewhat underutilized industrial and employment-focused district into a mixed-use employment district that will support both job growth and housing development. More information on public engagement for the project can be found on the Montgomery Park Area Plan website: <https://www.portland.gov/bps/planning/mp2h/mpap-recommended-draft>.

ANTICIPATED EFFECTS

Approval of this resolution will allow project staff to continue working with City of Portland and TriMet on the project to:

- Amend the 2023 RTP to reflect the LPA and a high-level funding plan
- Pursue federal funding
- Complete federally-required National Environmental Policy Act (NEPA) documentation
- Refine design and costing
- Support the implementation and construction of the project
- Open the streetcar extension in 2030

The project is currently listed in the 2023 RTP. However, the 2023 RTP needs to be amended to reflect the LPA defining the mode, route, and general station locations and a high-level funding plan. The next steps and timeline for that future action include:

- Metro staff will coordinate to prepare amendments to the 2023 Regional Transportation Plan to reflect the Montgomery Park Streetcar Extension LPA, as well as the TV Highway and 82nd Avenue LPAs.
- An RTP amendment is necessary to be eligible for federal funding and action.

- The RTP amendment will require a recommendation from MPAC and adoption by JPACT and Metro Council. The amendment may include the following as needed to reflect the LPA:
 - Amendments to Chapter 3 Transit Network Map
 - Amendments to the Appendix A: Constrained priorities project list
 - Amendments to Appendix W: Status of Current Major Projects
 - Amendments to Appendix V: Future corridor refinement planning
 - Create a new appendix: Montgomery Park Streetcar Extension Locally Preferred Alternative
 - Updates to reflect the RTP funding strategy or any other chapter components, if applicable
- The amendment will be accompanied by findings that demonstrate consistency with:
 - RTP goals, objections, and policies
 - Metro's Public Engagement Guide
 - Federal fiscal constraint requirements
 - Statewide planning goals
- Proposed RTP amendment schedule:
 - Fall 2025: Public comment period
 - Fall/Winter 2025: Review/discuss amendment and public comment at MTAC, TPAC, MPAC, JPACT, Metro Council
 - Spring 2026: Seek adoption of RTP amendment

Budget Impacts: Adoption of this resolution has no budget impact. There will be future costs associated with implementation of the project. These costs will be shared by local, regional, state and federal partners.
