**January FFY 2024 Formal/Full MTIP Amendment Summary**  
**Formal Amendment #: JA24-04-JAN**

The January Federal Fiscal Year 2024 Formal MTIP Amendment adds or amends seven projects for various reasons to meet federal transportation delivery requirements. A summary of the changes includes the following:

- **Beaverton School District Electric Chargers:** The formal amendment cancels the project and removes from the MTIP.
- **Key 23589 - New Metro 82<sup>nd</sup> Ave Bus Rapid Transit (BRT) Project Development:** The formal amendment adds the new Metro led 82<sup>nd</sup> Ave BRT project development planning effort to assist TriMet as they move forward to secure an FTA Small Starts grant to fund the BRT project. TriMet also will be adding a similar project development project in support of the 82<sup>nd</sup> Ave BRT (expected in February) that will complete environmental and preliminary design actions. The Metro funded portion is from the new Carbon Reduction Program (CRP) allocation.
- **Key 23239:** Initially, the project grouping bucket provided \$5 million of Metro awarded Carbon funds and \$1 million of federal STBG (from Key 23229) for the new 82<sup>nd</sup> Ave BRT Project Development planning project. However due to a potential eligibility conflict with another Carbon funded project, the STBG is being swapped with the Carbon funds. The final adjustment will occur later via an administrative action. The added \$1 million of Carbon funds will be swapped with the Climate Smart Implementation project grouping bucket. This adjustment will occur administratively. As a result, a total of \$6 million of Metro awarded Carbon funds are now committed to the 82<sup>nd</sup> Ave BRT Project Development project.
- **Key 23229:** Initially \$1 million of federal STBG was split off from this project grouping bucket and committed to the new 82<sup>nd</sup> Ave BRT Project Development project. However, subsequent to TPAC approval for Key 23589 with the STBG funds, potential eligibility issues have arisen with another Metro Carbon funded project. As a result, the \$1 million of STBG on Key 23589 is being swapped with the Carbon funds on the other project to eliminate the potential eligibility conflict. The 82<sup>nd</sup> Ave BRT Project Development project in Key 23589 remains with a total of \$6 million of federal funds (all Carbon now) being programmed in the Preliminary Engineering (PE) phase. There is no change in project scope to Key 23589.
- **Standard Formal Amendment Updates (e.g. Cost increases, scope and limit changes, name and description changes, etc.):**
  - Key 22435 – ODOT - OR47/OR8/US30 Curb Ramps: Cost increase.
  - Keys 22185 and 23188 – TriMet – Formula 5310 programs: Update FTA estimates and add overmatch.
  - Key 20329 – West Linn - OR43: Willamette Dr at Marylhurst Dr (West Linn): Adjust project name and description for scope change impacts.

The Exhibit A Tables starting on the next page to Resolution 24-5380 (or MTIP Worksheets) provide the additional details about the changes and programming actions for the included projects.

### Fund Codes References

Local	General Local funds committed by the lead agency that normally cover the minimum match requirement to the federal funds
CMAQ	Congestion Mitigation Air Quality (CMAQ) funds. CMAQ funds are a federal funding source (FHWA based) that provide a flexible funding source to State and local governments for transportation projects and programs to help meet the requirements of the Clean Air Act. Funding is available to reduce congestion and improve air quality for areas that do not meet the National Ambient Air Quality Standards for ozone, carbon monoxide, or particulate matter (nonattainment areas) and for former nonattainment areas that are now in compliance (maintenance areas). The funds are normally apportioned to the eligible states and then potentially sub-allocated to MPOs or other eligible agencies based on a formula allocation.
Other	Additional local funds committed by the lead agency above and beyond the minimum match requirement to the federal funds to cover the costs of the project phase.

**Summary of Amendment Changes Occurring:**  
 The formal amendment adds the new Metro Carbon Reduction Program (CRP) award to the MTIP in support of the planned new 82nd Ave Bus Rapid Transit (BRT) project. The project development activities will complete pre-NEPA and design activities and continue through the completion of NEPA and final design in support TriMet's effort to obtain a FTA Small Starts grant. Metro's funding includes a \$5 million CRP award and a \$1 million UPWP Next Corridor study grant award. TriMet will submit a separate project development project similar Metro's project as part of the February 2024 Formal Amendment bundle in support of their effort to secure the Small Starts grant. The split programming approach is necessary and has been approved by FTA. The estimated total funding to complete PE/project development to then move forward into construction is \$30 million. The RTP's estimated total project cost to complete the project is \$300 million.

Initially \$5 million of Metro Carbon funds and \$1 million of Metro Surface Block Grant (STBG-U) funds were awarded to the project. However, subsequent to the TPAC meeting, an eligibility conflict has emerged with another Metro awarded CRP funded project. To avoid potential conflicts, the STBG on this project is being swapped with \$1 million of Carbon funds from the Climate SMART Implementation project. The net result is the 82nd Ave BRT Project Development project remains with \$6 million of federal funds.

January 18, 2024 Update:  
 \$5 million of Metro Carbon funds have been approved to the 82nd Ave BRT Project Development project along with \$1 million of UPWP STBG Transit Corridor Development federal funds. The federal total is \$6 million awarded. Due to possible eligibility issues for the Climate SMART project, \$1 million of the \$1.8 million of Carbon funds are being swapped with the STBG on this project. This increases the total CRP funds for the 82nd Ave BRT project to \$6 million.

**Summary of Amendment Changes Occurring:**  
 The formal amendment splits \$5 million of Carbon funds (plus match) and transfers them to the new Metro 82nd Ave Bus Rapid Transit project. Metro is using awarded Carbon Reduction Program (CRP) funds to support the project. The project development activities will complete pre-design and pre-NEPA actions in support of TriMet's effort to obtain a FTA Small Starts grant. Metro's funding includes a \$5 million CRP award and a \$1 million UPWP Next Corridor study grant award. TriMet will be submitting a separate similar project for then to complete project development activities in support of their effort to secure the Small Starts grant as well. The split programming approach is necessary and has been approved by FTA.

**MTIP Detailed Description (Internal Metro use only):**  
 Created by the Bipartisan Infrastructure Law, a new funding program created to focus on transportation activities which reduces the emissions of carbon and greenhouse gases from transportation sources. Federal rules and guidance outlines state and metropolitan planning organization requirements for allocating and spending dollars, in addition to defining overarching eligible activities for funds. The Metro allocation of funding for the Carbon Reduction Program is still to be determined but will be guided by the region's Climate Smart Strategy.

**STIP Description:** Funding to focus on transportation activities to reduce the emissions of carbon and greenhouse gases from transportation sources.

 PROJECT AMENDMENT DETAIL WORKSHEET

MTIP Formal Amendment  
**COST INCREASE**  
 Create a small UR phase and  
 increase Construction

**Project #4**

**Project Details Summary**

ODOT Key #	22435	RFFA ID:	N/A	RTP ID:	12095	RTP Approval Date:	11/30/2023
MTIP ID:	71257	CDS ID:	N/A	Bridge #:	N/A	FTA Flex & Conversion Code	No
MTIP Amendment ID:		JA24-04-JAN		STIP Amendment ID:		24-27-0586	

Summary of Amendment Changes Occurring:

The formal amendment adds a Utility Relocation phase and adds funds to the construction phase. . The changes are above the thresholds for administrative modifications. The net cost change is 26.6% which is above the 20% threshold for administrative cost changes to MTIP projects. The project requires the addition of a Utility phase (UR) to cover utility reimbursements and an increase in Construction phase (CN) to cover additional and increased project costs. The project will construct approximately 250 curb ramps along OR47, OR8, and US 30 in Forest Grove, Gaston, Vernonia, and Ranier. Construction cost bids are higher due to: 1) an abundance of work and firms experiencing resource and staffing limitations, 2) design and delivery are being outsourced with increases in temporary traffic features, 3) more locations than projected were found to require 3D modeling, 4) more signal and utility relocations, and 5) extensive earthwork to get slopes within allowable limits.

Project Name:	<b>OR47/OR8/US30 Curb Ramps</b>						
Lead Agency:	<b>ODOT</b>	Applicant:	ODOT	Administrator:	ODOT		
Certified Agency Delivery:	N/A	Non-Certified Agency Delivery:	N/A	Delivery as Direct Recipient:	N/A		

**Short Description:**

Construct to American Disabilities Act (ADA) standards, curbs and ramps at multiple locations along OR47, OR8, and US30 to reduce mobility barriers and make state highways more accessible to disabled persons

**MTIP Detailed Description (Internal Metro use only):**

At approximately 22 locations on OR47, OR8, and US30, construct to ADA standards curbs and ramps as part of the ODOT/AOCIL settlement to help reduce mobility barriers and make state highways more accessible to disabled persons (RTP ID: 12095), (PGB = Yes, Safety & Ops) (OTC approval: March 2021, Item G), (Exempt 40 CFR93.126, Table 2, Air Quality - Bicycle and Pedestrian Improvements)

**STIP Description:**

Construct curb ramps to meet compliance with the Americans with Disabilities Act (ADA) standards.

**Fund Codes References**

Advance Construction ADVCON (AC funds)	A funding placeholder tool. This fund management tool allows agencies to incur costs on a project and submit the full or partial amount later for Federal reimbursement if the project is approved for funding. Advance construction can be used to fund emergency relief efforts and for any project listed in the STIP, including surface transportation, interstate, bridge, and safety projects. The use of Advance Construction is normally only by the state DOT to help leverage their funding resources and keep projects on their respective delivery schedules.
AC-STBGS	This is the later projected federal conversion code for the advance constructions being programmed now. AC-STBGS means that the advance construction funds will be converted into State STBG funds
STBG	Surface Transportation Block Grant funds. A federal funding source (FHWA based) appropriated to the State DOT. The Surface Transportation Block Grant Program (STBG) promotes flexibility in State and local transportation decisions and provides flexible funding to best address State and local transportation needs.
State STBG	Appropriated STBG that remains under ODOT's management and commitment to eligible projects.
State	General state funds committed to the project to cover the required minimum federal match to the federal funds.

 PROJECT AMENDMENT DETAIL WORKSHEET

MTIP Formal Amendment  
**SCOPE CHANGE**  
 Revise project name and description for scope update

**Project #7**

Project Details Summary							
ODOT Key #	20329	RFFA ID:	50285	RTP ID:	<del>10127 (2018)</del> 11746	RTP Approval Date:	11/30/2023
MTIP ID:	70882	CDS ID:	N/A	Bridge #:	N/A	FTA Flex & Conversion Code	No
MTIP Amendment ID:		JA24-04-JAN	STIP Amendment ID:		24-27-0592		

Summary of Amendment Changes Occurring: The formal amendment revises the project scope to primarily be located at the Marylhurst Dr intersection and be limited to intersection safety improvements and an upgrades traffic signal. The planned scope between Hidden Springs and Cedar Oak is no longer feasible due to adjacent projects not being completed as planned. Additionally, construction estimates for this section exceeded the available budget. A reduction in scope is necessary in order to deliver the remaining scope of the project, which will consist of upgrades to the Marylhurst/OR43 intersection. The intersection will be rebuilt as a protected intersection with a new traffic signal, new ADA ramps, and new bike facilities. As a result, PE requires additional funds to complete the scope adjustment. The ROW phase decreases allowing funds to be shifted from ROW to PE.

Project Name:	<del>OR43: Marylhurst Dr - Hidden Springs Rd (West Linn)</del> OR43: Willamette Dr at Marylhurst Dr (West Linn)						
Lead Agency:	West Linn	Applicant:	West Linn	Administrator:	ODOT		
Certified Agency Delivery:	No	Non-Certified Agency Delivery:	Yes	Delivery as Direct Recipient:	No		

**Short Description:**  
 Construct a new cycle track and sidewalk along OR-43 from Cedar Oaks to Hidden Springs Rd. Install a new traffic signal at OR43 and Hidden Springs Rd.  
 Construct a new protected signalized intersection at OR43/Marylhurst that provides separation for vehicles, pedestrians, and bicyclists and improves safety for all roadway users.

**MTIP Detailed Description (Internal Metro use only):**

~~Construct a new cycle track and sidewalk along OR-43 from Cedar Oaks to Hidden Springs Rd. Install a new traffic signal at OR43 and Hidden Springs Rd connecting to the new extension of Old River Rd to be constructed by the City of West Linn at OR43 and Marylhurst Drive. (RFFA 2019-21 award cycle)~~

In West Linn on OR43 (Willamette Dr) at Marylhurst Dr (MP 8.35 to MP 8.5), construct a new protected signalized intersection at OR43/Marylhurst that provides separation for vehicles, pedestrians, and bicyclists and improves safety for all roadway users. (RFFA 2019-21 award cycle)

**STIP Description:**

Construct a new protected signalized intersection at OR43/Marylhurst that provides separation for vehicles, pedestrians, and bicyclists and improves safety for all roadway users.

### Fund Codes References

Local	General Local funds committed by the lead agency that normally cover the minimum match requirement to the federal funds
Other	Generally added local funds beyond the required minimum match to the federal funds that the lead agency commits to cover the phase costs. Also referred to as "Overmatch" funds.
CMAQ	Congestion Mitigation Air Quality (CMAQ) funds. CMAQ funds are a federal funding source (FHWA based) that provide a flexible funding source to State and local governments for transportation projects and programs to help meet the requirements of the Clean Air Act. Funding is available to reduce congestion and improve air quality for areas that do not meet the National Ambient Air Quality Standards for ozone, carbon monoxide, or particulate matter (nonattainment areas) and for former nonattainment areas that are now in compliance (maintenance areas). The funds are normally apportioned to the eligible states and then potentially sub-allocated to MPOs or other eligible agencies based on a formula allocation.
STBG	Surface Transportation Block Grant funds. A federal funding source (FHWA based) appropriated to the State DOT. The Surface Transportation Block Grant Program (STBG) promotes flexibility in State and local transportation decisions and provides flexible funding to best address State and local transportation needs.
State STBG	Appropriated STBG that remains under ODOT's management and commitment to eligible projects.
STBG-U	STBG funds that ODOT suballocates to Metro for use of eligible projects in urban areas
TA	Transportation Alternatives (TA) are a federal funding source (FHWA based). TA funds are set-aside from the Surface Transportation Block Grant (STBG) program. Eligible uses of the set-aside funds include all projects and activities that were previously eligible under the Transportation Alternatives Program under the Moving Ahead for Progress in the 21st Century Act (MAP-21). This encompasses a variety of smaller-scale transportation projects such as pedestrian and bicycle facilities, recreational trails, safe routes to school projects, community improvements such as historic preservation and vegetation management, and environmental mitigation related to stormwater and habitat connectivity. TA funds are apportioned to the State DOT. A portion of the TA funds are then suballocated to the MPOs.
TA-S	TA funds that remain under ODOT's allocation and management.
TA-U	TA funds that are allocated to Metro and are generally used for eligible projects awarded federal funds through the Regional Flexible Fund Allocation (RFFA) funding call.
