SUBJECT: Consent Item 07 – 2025 July Quarterly STIP Adjustment

Requested Action:

Approve the attached list of added, modified, or canceled projects to the STIP.

Background:

Historically, the practice of the agency has been to bring projects one at a time to the OTC when new project opportunities arose and actions were taken on a project-by-project basis. In order to streamline this process, in July 2023, the Commission agreed to a quarterly aggregated STIP amendments for necessary project and program amendments.

This is the quarterly amendment for July 2025. There are 42 projects on the list that have been added, modified or canceled. The attached list of projects for the 2024-2027 STIP consists of time-sensitive actions associated with adjusting funding to capital projects in the Regions and programs statewide. Financial changes to projects occur through existing funding programs. These amendments have been vetted through the appropriate Division Administrators and elevated through ODOT to the Commission.

CITY (Local)	General Local funds committed by the lead agency that normally cover the minimum match requirement to the federal funds
TA	Transportation Alternatives (TA) are a federal funding source (FHWA based). TA funds are set-aside from the Surface Transportation Block Grant (STBG) program. Eligible uses of the set-aside funds include all projects and activities that were previously eligible under the Transportation Alternatives Program under the Moving Ahead for Progress in the 21st Century Act (MAP-21). This encompasses a variety of smaller-scale transportation projects such as pedestrian and bicycle facilities, recreational trails, safe routes to school projects, community improvements such as historic preservation and vegetation management, and environmental mitigation related to stormwater and habitat connectivity. TA funds are apportioned to the State DOT. A portion of the TA funds are then suballocated to the MPOs.
TAP 50K-200K	Federal Transportation Alternatives Program funding designated for areas with populations between 50,000 and \$200,000. The same eligibility requirements exist for the TAP 50k-200K funds as for TA-U funds Metro receives. This TA/TAP funding is separate from Metro TA-U (or urban TA) annual allocation.

Fund Codes References	
CNTYMULT	General Local funds committed by the lead agency that normally cover the minimum match requirement to the federal funds
Advance Construction ADVCON (AC funds)	A funding placeholder tool. This fund management tool allows agencies to incur costs on a project and submit the full or partial amount later for Federal reimbursement if the project is approved for funding. Advance construction can be used to fund emergency relief efforts and for any project listed in the STIP, including surface transportation, interstate, bridge, and safety projects. The use of Advance Construction is normally only by the state DOT to help leverage their funding resources and keep projects on their respective delivery schedules.

MTIP Detailed Description	In the northwestern Portland area from the Columbia River west to US 30, and the St Helens area in the north (Outside MPO Boundary) then south to NW St Helens Rd just north of the Smith and Bybee Wetlands area, establish the Columbia Bottomlands Mitigation/Conservation Bank to generate conservation credits for future ODOT project impacts to aquatic resources and Endangered Species Act (ESA) listed fish species							
STIP Description	Develop a long term mitigation/conservation bank in the Lower Willamette Watershed that generates credits for aquatic resources to be used by the greatest number of Endangered Species Act (ESA) listed fish species practicable.							

Formal Amendment Overview

Amendment Purpose:	The MTIP formal amendment adds State funds to the PE and construction phases plus reduces the ROW phase. The construction budget was set based on early estimates and inflation has impacted the project increasing the overall delivery cost.
Key Changes occurring:	The formal amendment the required new State funding to the project. The project total cost increases from \$3,887,547 to \$5,992,547.
Why a formal amendment?	Per the approved Metro MTIP Amendment Matrix, the cost increase exceeds the cost change threshold of 30% for projects between \$1 and \$5 million dollars. This triggers the need for a formal amendment to complete the cost increase.

Formal Amendment Overview

Amendment Purpose:	The MTIP formal amendment cancels the project from the MTIP and STIP.
Key Changes occurring:	The project funding are ODOT allocated STIF funds. The funding was initially thought to be a state discretionary award to SMART which triggers MTIP and STIP programming. However, a follow-on review revealed the STIF funds were part of the annual STIF allocation to transit agencies. The proposed improvement is not regionally significant, impacts the transportation system, or requires any federal approvals. As a result removal from the MTIP and STIP is authorized. Note: SMART will complete their proposed facility upgrades with the STIF funds. Only MTIP and STIP programming is being canceled.
Why a formal amendment?	Per the approved Metro MTIP Amendment Matrix, canceling a project in the MTIP requires a formal/full amendment.

Formal Amendment Overview

Amendment Purpose:	The MTIP formal amendment cancels the project from the MTIP and STIP.
Key Changes occurring:	The cancellation is via joint agreement between both ODOT and WSDOT due to a WSDOT funding issue for the project. OTC approval will be required. ODOT will take the cancellation request to OTC during their November 2025 meeting. The amendment processing is occur under concurrent processing agreement between Metro and ODOT. At this time, there are no indications that OTC will not approve the cancellation request. WSDOT has indicated that they currently lack sufficient Preservation Program funds to provide their 50% contribution based on the current schedule. WSDOT considers the cancellation a temporary action and is requesting to revisit the project in a year.
Why a formal amendment?	Per the approved Metro MTIP Amendment Matrix, canceling a project in the MTIP requires a formal/full amendment.
