Metro FY 2022 UPWP Project Descriptions

| Reg | ional Transportation Plannin | g |
|-----|---|--|
| 1 | Transportation Planning | Metro is responsible for meeting all federal planning requirements for MPOs. These include major Metro is responsible for all federal planning requirements. These include mandates described elsewhere Transportation Plan (RTP) and Metropolitan Transportation Improvement Plan (MTIP) that follow this section. In addition to these major mandates, Metro also provides a series of ongoing transportation other transportation planning in the region. Our core transportation planning activities include: Periodic amendments to the RTP, periodic updates to the regional growth forecast, periodic updates to the corridor and investment area planning, ongoing transportation model updates and enhancements, policy support for regional mobility and Congestion Management Process (CMP) programs, plus comp |
| 2 | Climate Smart Implementation | The Climate Smart implementation program is an ongoing activity to monitor and report on the region's progress in achieving the policies and actions set forth in the adopted 2014 Climate Smart Strate Target Rule. The program also includes technical and policy support and collaboration with other regional and statewide climate initiatives to ensure MPO activities, including implementation of the Reg (GHG) emissions eduction goals. |
| 3 | Regional Transportation Plan Update (2023) | The RTP is maintained and updated regularly to ensure continued compliance with state and federal requirements and to address growth and changes in land use, demographics, financial, travel, techno |
| 4 | Metropolitan Transportation Improvement Program (MTIP) | The MTIP represents the first four-year program of projects from the approved long range Regional Transportation Plan (RTP) identified to receive funding for implementation. It ensures that program o the expected performance of the package of projects relative to adopted performance goals. |
| 5 | Regional Transit Program | The Regional Transit Strategy provides the roadmap for making these investments over time, and the Regional Transit program focuses on implementing the strategy in collaboration with our transit program focuses on implementing the strategy in collaboration with our transit program focuses on implementing the strategy in collaboration with our transit program focuses on implementing the strategy in collaboration with our transit |
| 6 | Required Mobility Policy Update | Metro and the Oregon Department of Transportation (ODOT) are working together to update the Regional Mobility Policy which defines and measures mobility for people and goods traveling in and thr |
| 7 | Regional Freight Studies | The Regional Freight Program manages updates to and implementation of multimodal freight elements in the Regional Transportation Plan (RTP) and supporting Regional Freight Strategy. The program the regional transportation system. The program supports coordination with local, regional, state, and federal plans to ensure consistency in approach to freight-related needs and issues across the regional transportation system. |
| 8 | Complete Streets Program | Metro's Complete Streets program includes activities related to street design, safety and active transportation. Program activities include sharing best practices and resources, providing technical assista goals and targets. |
| 9 | Regional Travel Options (RTO) and Safe Routes to School Program | The Regional Travel Options (RTO) Program implements Regional Transportation Plan (RTP) policies and the Regional Travel Options Strategy to reduce drive-alone auto trips and personal vehicle miles of Routes to School (SRTS) program was an additional focus area of the 2018 RTO Strategy. In 2019, seven SRTS grants were awarded to local jurisdictions, school districts, and community based organization programs for kids and youth. |
| 10 | Transportation System Management and Operations (TSMO) - Regional Mobility Program | The Regional Transportation System Management and Operations Regional Mobility (TSMO) Program (salary portion) provides a demand and system management response to issues of congestion, relia investments, promote travel options in real-time, reduce greenhouse gas emissions and increase safety. |
| 11 | Enhanced Transit Concepts | The Enhanced Transit Concepts (ETC) program identifies transit priority and access treatments to improve the speed, reliability, and capacity of TriMet frequent service bus lines or streetcar lines. ETC tr able to be implemented quickly to improve transit service in congested corridors. The program develops partnerships with local jurisdictions and transit agencies to design and implement ETC capital an operational investments. |
| 12 | Economic Value Atlas (EVA) Implementation | Metro's Economic Value Atlas (EVA) establishes tools and analysis that align planning, infrastructure, and economic development to build agreement on investments to strengthen our economy. The EV applications among partner organizations and jurisdictions, refinements to the tool, and integration into agency-wide activities. This is an ongoing program |
| Cor | ridor/Area Planning | |
| 1 | Corridor Refinement and Project Development (Investment Areas) | The Investment Areas program completes system planning and develops multimodal projects in major transportation corridors identified in the Regional Transportation Plan (RTP) as well as developing investments in economic investment areas that support the region's growth economy. |
| 2 | Southwest Corridor Transit Project | The Southwest Corridor Transit Project extends the MAX light rail system to connect downtown Portland with southwest Portland, Tigard and Tualatin. The project is 11 miles long and includes 13 statio to public roadway, sidewalk, bike, transit and stormwater infrastructure. Program activities include environmental review, collaborative project design, coordination on land use planning, and developm housing options and jobs for all households. In FY 2020-21, the project released a final draft conceptual design report and completed a Final Environmental Impact Statement, and acquired a Record of further engineering and funding efforts. |
