The CMAQ funds have an obligation shelf-life expiration date of the end of FFY 2023. Due to this, Metro and TriMet worked together to reprogram the funds to TriMet's MAX Red Line Extension Project
Project #23 Key 20849 MTIP ID 71230	TriMet	MAX Red Line Extension & Reliability Improvements	<u>COST INCREASE:</u> The formal amendment adds the new CMAQ funds (and match) from Key 22188. The Max Red Line Extension project has been evaluated as a suitable substitute for the original Electric Bus purchase project in Key 22188. The project phase costs have been updated per TriMet's guidance as well.	Extend MAX Red Line from Beaverton to Fair Complex/Hillsboro Airport, double track single track sections near Gateway/NE 99th Ave and at PDX Airport with reconfigured station, plus construct new light rail bridge and Red Line station at Gateway.

Detailed Description: Metro's Transit Oriented Development (TOD) program works directly with developers and local jurisdictions to create vibrant downtowns, main streets and station areas. The program attracts private investment in construction of compact and mixed-use buildings that: (1) Bring people to live and work within walking distance of high quality transit. (2) Creates new market comparables for more compact development. (3) Cultivates developers with expertise in compact and mixed-use building in suburban settings. (4) Increases acceptance of urban style buildings through high quality design. (5) Contributes to placemaking and local identity. (6) Support housing affordability. By increasing the intensity of land uses close to transit, people have been induced to use transit more, and drive less. This improves the cost-effectiveness of regional transit investments.. Detailed Description: Metro's Transit Oriented Development (TOD) program works directly with developers and local jurisdictions to create vibrant downtowns, main streets and station areas. The program attracts private investment in construction of compact and mixed-use buildings that: (1) Bring people to live and work within walking distance of high quality transit. (2) Creates new market comparables for more compact development. (3) Cultivates developers with expertise in compact and mixed-use building in suburban settings. (4) Increases acceptance of urban style buildings through high quality design. (5) Contributes to placemaking and local identity. (6) Support housing affordability. By increasing the intensity of land uses close to transit, people have been induced to use transit more, and drive less. This improves the cost-effectiveness of regional transit investments. Notes and Summary of Changes:

- > Red font = prior amended funding or project details. Blue font = amended changes to funding or project details. Black font indicates no change has occurred.
- > ACTION: Cancel project from 2021-24 MTIP

Amendment Summary:

The formal amendment cancels Key 21800, ODOT's I-84: NE Martin Luther King Jr Blvd - I-205 rehab project. In the 2021-2024 STIP, this project was originally awarded \$1,000,000 Fix-it Interstate Maintenance (IM) funds which includes the state match requirement. The intent of the project was to design for a future pavement resurfacing project to repair ruts and surface wear. The reason for cancellation was due to the fact that the pavement along this segment of Interstate-84 is in better condition than expected. The IM Program manager recommends optimizing the current paving investment and postponing this project to the next STIP update

- (1) The Other phase with \$10,499,072 represents prior obligated project development expenditures
- (2) The total 5309 Small Starts grant totals \$100,000,000. The 5309 is reduced in the Construction phase to increase the ROW phase.
- (3) The total local matching funds towards the 5309 FTA grant include the following: ROW of \$2,608,462 + PE Local Other funds of \$13,726,182 + Project Development funds of \$10,499,072 + Construction phase match to 5309 of \$87,840,421 for a matching fund total of \$114,674,137. The STBG and CMAQ local matches are separate. Under Pre-Award Authority, local funds in PE and the Other phase for project development may count towards the 50% local match requirement.
- (4) The cost increase equals \$7,776,259 which equals a 3.5% increase to the project

Notes and Summary of Changes:

Red font = prior amended funding or project details. Blue font = amended changes to funding or project details. Black font indicates no change has occurred.

Amendment Summary:

The formal amendment adds the new CMAQ funds (and match) from Key 22188. The Max Red Line Extension project has been evaluated as a suitable substitute for the original Electric Bus purchase project in Key 22188. The project phase costs have been updated per TriMet's guidance as well. Including the CMAQ and Other phase project development local funding per FTA's direction increases the total project cost to \$224,644,461. The phase cost adjustments also includes a ROW phase cost increase as well. Without the project development costs, the project's total implementation costs are \$214,145,387.
