1. TriMet's STIF funds are part of their regular STIF allocation. They are not part of a special grant award from the ODOT Public Transit Division. These STIF funds do not require any reimbursement involvement through ODOT now that they are allocated. While they originate from ODOT as State funds, they are programmed as local funds and called out as a special type of local fund.
2. The Metro awarded federal Carbon funds are being programmed based on a federal share of 89,73% and a minimum local match requirement of 10.27%.
3. Phase programming is occurring the FTA's approved logic of single year obligation logic which enables the TrAMS grant with the entire funding to be approved at once per FTA's obligation process.

**Fund Codes References**

Local	General Local funds committed by the lead agency that normally cover the minimum match requirement to the federal funds
Local-STIF	ODOT allocated state funds to eligible transit agencies. The Statewide Transportation Improvement Fund (STIF) program was established in Section 122 of House Bill 2017 to provide a dedicated source of funding for improving, maintaining, and expanding public transportation for all users. Every two years, public transportation funding is made available to support access to jobs, improve mobility, relieve congestion, and reduce greenhouse gas emission in Oregon. These specific allocated funds do not require further ODOT involvement and are considered for programming purposes to be a specialized type of local funds.
Carbon	Federal Carbon Reduction Program (CRP) funds appropriated to the state DOT. A portion is allocated to Metro for eligible projects in urbanized areas. The purpose of the Carbon Reduction Program is to reduce transportation emissions through the development of State carbon reduction strategies and by funding projects designed to reduce transportation emissions. The federal funds have a standard 10.27% required match.

**Line 33 - McLoughlin Corridor Transit Signal Priority (TSP):** Expansion of next generation transit signal priority first implemented in the Division Transit corridor to improve reliability of transit service. Expands capability of TriMet to implement TSP with new project partners and independent of a Bus Rapid Transit project in anticipation of implementing additional TSP projects across the region. Any remaining funds may also be used on systemic TSP needs to make the Line 33 elements perform optimally or on small capital stop amenities or safe transit access elements in the corridor. Project scope and funding would be coordinated with, and not displace, funding from other potential sources such as Congressionally directed spending or tolling mitigation funding.

### Fiscal Constraint Consistency Review

1. What is the source of funding? ODOT awarded State STBG to the project. The remaining local overmatch is being provided by TriMet. A separate project development project is being programmed with Metro as the lead with a total \$6,686,727 of federal CRP funds and match. Together both projects will support the completion of the project development required activities which have an estimated total of \$30 million.

2. Does the amendment include changes or updates to the project funding? **Yes. This is a new project being added to the MTP. The State STBG were verified by Salem as an award for the BRT project. The AOPP award was verified through FTA.**
3. Was proof-of-funding documentation provided to verify the funding change? **Yes, as noted above.**
4. Did the funding change require OTC, ODOT Director, or ODOT program manager approval? **Salem program award confirmation was required and provided by ODOT for the State STBG funds.**
5. Has the fiscal constraint requirement been properly demonstrated and satisfied as part of the MTIP amendment? **Yes.**
