Planning Topic	2025 Metro Certification Corrective Actions	Draft Action Items
Metropolitan Transportation Plan (MTP)	To fully meet the requirements of 23 CFR 450.324(f)(11)(iii), Metro must update the MTP by November 30, 2028, to specifically address the following requirement:	
	 The financial plan must include strategies for new funding sources for ensuring their availability. 	As a part of the scope of work for the next Regional Transportation Plan (RTP) update, identify the development of a financial plan and strategy to pursue any new funding forecasted in the financial plan.
Civil Rights	Revise the Title VI Plan to include the following:	
	 The Title VI Assurances need current signatures and dates and placed in appendix of future Title VI Plans. 	Title VI Assurances have current signatures and dates and to be placed in the appendix of future Title VI Plans.
	• Update the Title VI complaint process so FHWA headquarters processes the complaints. Both the complaint web page and the plan itself need to be modified to reflect these changes.	Title VI complaint process updated.
	 The Plan needs to say it was approved by the Policy Committee and the approval date. 	Have MPO policy committees review and approve Title VI Plan.

	• Based on 23 CFR 200.9, the organizational chart in the Title VI Plan needs to reflect the position of the person who signs the assurances and show that the Title VI Program Manager has unfettered access to this person.	Update Title VI Plan to demonstrate direct line of access between Title VI Program Manager and Metro Administrator responsible for signing federal assurances.
Planning Topic	2025 Metro Certification Recommendations	Draft Action Items
MPO Structure and Agreements	• The Federal Team recommends that the approval documentation for any plans or programs include the dates of action by both JPACT and the Metro Council, as their interdependent roles are essential to successful process approvals.	Update the document/report title page template to include an entry for both JPACT and Metro Council approval dates.
	• The Federal Team recommends that FTA and FHWA be added as non-voting members of JPACT, with opportunities to provide updates on JPACT meeting agendas. Additionally, consider including direct representation of regional transit agencies on technical advisory boards and committees, such as the Transportation Policy Alternatives Committee (TPAC).	Regularly invite FHWA and FTA staff to propose items to JPACT work program and present at JPACT meetings. Review rosters of technical advisory boards and committees for consideration of additional representation of regional transit agencies.

• The Federal Team recommends that Metro work with JPACT members and regional transit agencies to clearly define how regional transit interests are represented on the committee. The JPACT By-Laws should explicitly describe the role of the regional transit representation seat, currently held by TriMet. Additionally, the representation of transit agencies on JPACT could be further supported through interlocal agreements between the transit agencies.

Share current definition of regional transit agency representation on JPACT and determine whether any clarification is warranted.

Consult with JPACT and consider means/methods to support JPACT members in their representation of transit issues and agencies, such as preparatory coordination meetings or briefings.

Propose and obtain feedback on Metro hosting regular (quarterly?) transit providers coordination meeting to review and discuss TPAC and JPACT work programs and public transit planning topics.

Review TPAC by-laws and operating procedures with intent to increase opportunities for participation by public transportation service providers in regional planning activities.

Review and prepare update to regional planning agreement between ODOT, Metro, TriMet and SMART for opportunities to clarify and increase coordination on public transit planning activities.

Metropolitan Transportation Plan (MTP) • The Federal Team recommends that the RTP document the use of Year of Expenditure (YOE) in the financial planning processes and clearly outline the methods used to establish the inflation factor applied for YOE.

Work with the statewide long-range transportation revenue forecast committee and professional technical staff to define and document the methods used to forecast project cost inflation. • The Federal Team recommends that the RTP include a project prioritization process that clearly demonstrates how performance-based planning is used to identify and prioritize projects that support regional goals and policies. The FHWA will provide assistance and conduct an additional review as Metro works towards implementing this recommendation.

As directed by JPACT and the Metro Council in Ch. 8 of the 2023 RTP (Section 8.2.3.13), Metro will work with cities, counties, communitybased organizations and transportation agencies to improve the process of developing, evaluating and prioritizing the projects submitted by local agencies, ODOT, Port of Portland, TriMet, SMART and federallyrecognized tribal governments in advance of the next RTP update. This work will also support Metro implementation of OAR 660-012-0155 and address corrective actions approved by the Land Conservation and Development Commission in January 2025. This work will include: •Participating in the FHWA review to learn best practices on MTP project list development and prioritization.

• Convening a group or multiple groups to review Metro's existing metrics and tools for evaluating the impacts of transportation decisions on the region's safety, climate, equity, mobility and economy to ensure metrics and tools reflect community and regional priorities.

• Conducting a review of processes and best practices used by four to five peer MPOs to identify needs, develop project list to address needs, and evaluate and prioritize investments.

Working with cities, counties and transportation agencies to share best practices and information on conducting inclusive, equitable engagement and applying safety, climate and equity data and metrics to identify investment priorities in advance of the 2028 RTP call for projects.
Developing strategies to improve coordination on submitting projects on state or multi-jurisdictional facilities.

• Reviewing lessons learned during past RTP project-level evaluations, including those conducted during the 2018 and 2023 RTP updates.

• The Federal Team recommends that local Document a review of local, regional and statewide planning efforts and and statewide planning efforts and planning documents during the scoping phase of the 2028 RTP update. planning documents, which play an important role in the development of the RTP, be clearly articulated in the RTP document through an integrated annroach Congestion Managemen • The Federal Team recommends that the Prepare a CMP Report to inform the scoping phase and subsequent work t Process (CMP) in support of the 2028 RTP update. CMP continue to serve as a vital tool and resource for enhancing the region's understanding of congestion and developing Update the online Atlas of Mobility Corridors data and RTP Mobility effective reduction strategies. To support Corridors Strategies to reflect current CMP data identified in Appendix L this effort, the MPO should ensure that CMP to the 2023 RTP and project solutions prioritized to address identified needs during the 2028 RTP update. products, such as the Atlas of Mobility Corridors and RTP Regional Mobility Participate in FHWA review and reach out to peer MPOs to learn best Corridor Strategies, are updated prior to the next RTP revision, incorporating the most practices. recent data and analysis on congested corridors. Additionally, the revised RTP should clearly outline the strategies developed through the CMP and their anticipated outcomes. Lastly, the FHWA plans to conduct an additional review of Metro's CMP to identify opportunities for improvement, aiming to enhance the CMP's effectiveness and relevance to the development of both the RTP and TIP.

Public Participation Plan • The Federal Team recommends (PPP) documenting the federally require

documenting the federally required PPP as Appendix D of the Public Engagement Guide since much of what is required PPP as Appendix D of the Public Engagement Guide since much of what is required for effective public involvement is already addressed within the guide itself, not Appendix D. To alleviate confusion, Appendix D should clearly identify the elements within the Public Engagement Guide that apply to Federal requirements, or the PPP should be fully integrated into the guide to eliminate duplication and confusion.

• The federal team recommends that if Appendix D is maintained, the update cycles and processes to document public

comments and to engage the public should support those identified in the Public Engagement Guide.

□ The Federal Team recommends that the PPP be a part of Metro's key documents on Metro's website to ensure it is easily accessible and usable by the public.

In the next update, staff will consider simplification of the Public Engagement Guide and the demonstration of federally required public involvement activities as currently shown in Appendix D.

Website recommendations will be addressed as a part of the new website launch in the fall of 2025.

ould Staff will continue to look at best practices to increase communication of concepts with use of visualization techniques.

 The Federal Team recommends that Metro consider streamlining and simplifying documents, utilizing visualization techniques to manage messaging rather than relying solely on text. None.

Civil Rights Transportation Improvement Program (TIP)

□ The Federal Team recommends all projects submitted to the TIP should be prioritized by the MPO to ensure the goals and policies of the RTP are being met. This will also help ensure that decisionmakers better understand how projects included in the TIP support the RTP and federal performance measures. The FHWA will provide assistance and conduct an additional review as Metro works towards implementing this recommendation.

MPO staff and stakeholders will engage with FHWA assistance to examine how to apply best practices for prioritizing TIP projects and programs to ensure RTP policies are being met and decision makers understand how the TIP programmed activities support the RTP and federal performance measures.
