Transportation funding measure: Corridors

Metro Council work session June 4, 2019

Task Force phases of work

Task Force discussions to date

Council direction & your values Advancing racial equity Meeting our climate goals Building a successful measure **Evaluating corridors Readiness and opportunity** Potential prioritization 4

Metro Council measure outcomes direction, Jan. 2019

Improve safety

Make it easier to get around (improve congestion)

Increase access, especially for people of color

Support resiliency

Protect clean air & reduce emissions

Support economic growth

Be regional in nature

Task Force measure outcomes additions, March 2019

Improve safety

Make it easier to get around (improve congestion)

Prioritize investments that support communities of color

Increase access, especially for people of color

Support resiliency

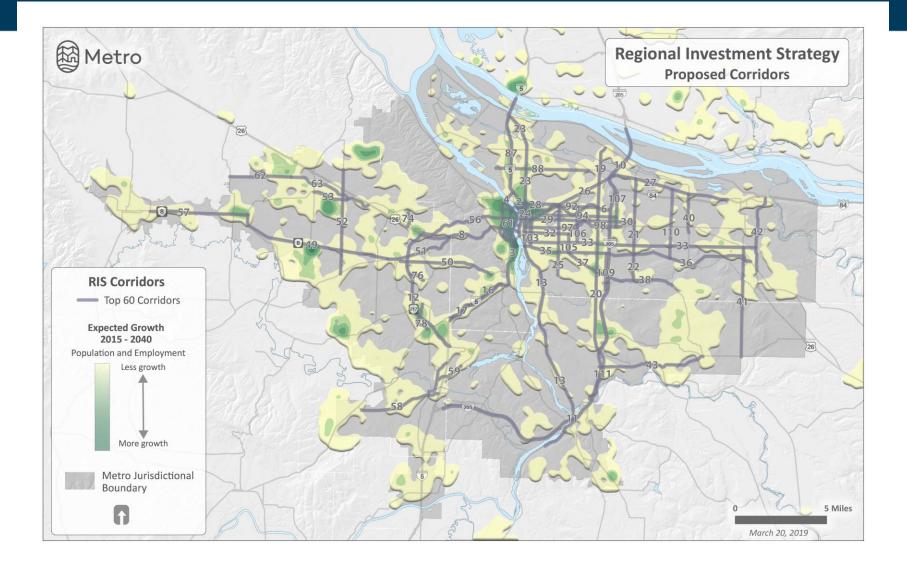

Protect clean air & reduce carbon emissions

Support economic growth and system connectivity

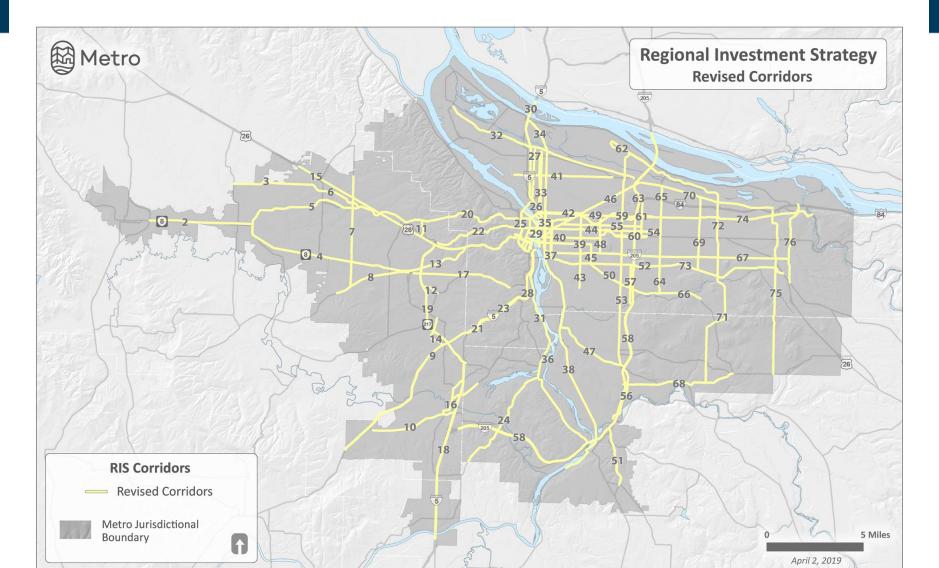

Be regional in nature

Leverage housing, open space investments

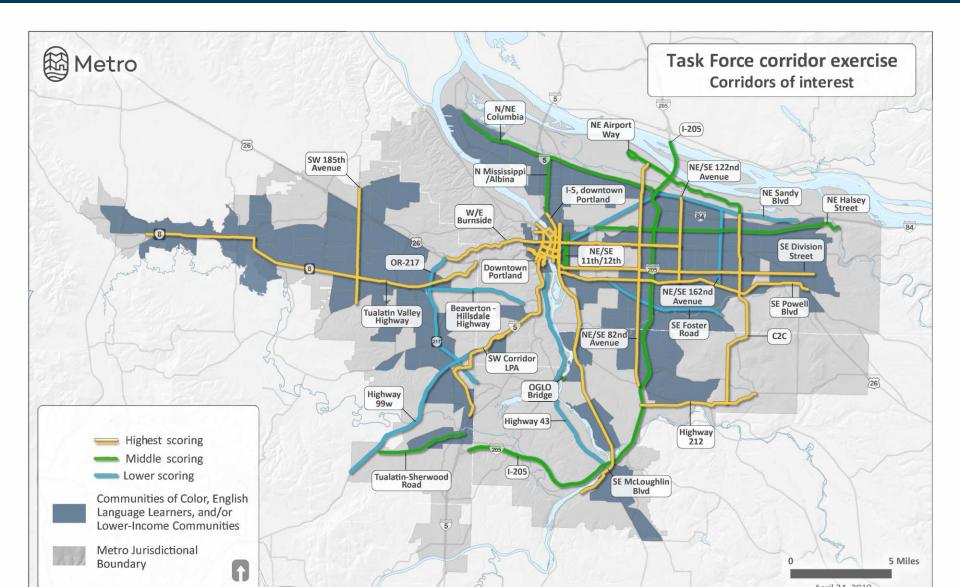

Initial 60 corridors – from Council

Task Force: All corridors for consideration

Task force corridor exercise

Key takeaways: Task Force corridor evaluation

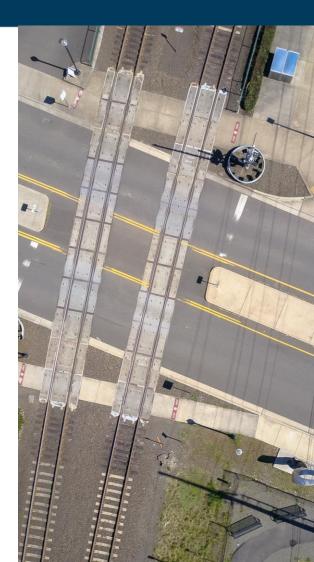

Corridors should improve regional system

Invest in underserved areas

Action on climate change

Equitable, communityfocused options

Projects should support better transit

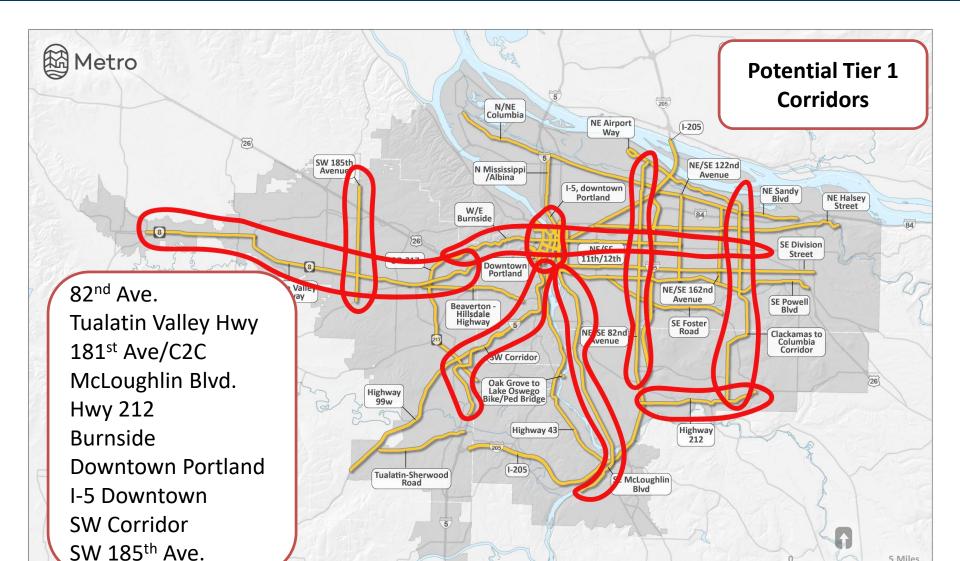

Defining tiers of corridors

Tier 1: High potential to advance outcomes, project readiness

Tier 2: Less potential and/or readiness – could be further developed and included in package, or specific improvements could be funded through programs

Tier 3: Least potential and/or readiness – specific improvements could be funded through programs

Staff corridor assessment: 5/15

Staff corridor assessment, 5/15

Potential Tier 2 corridors

(no particular order)

Powell Blvd.

122nd Ave.

MLK/Grand

Beaverton-Hillsdale Hwy

Foster Rd.

Division St.

Columbia Blvd.

162nd Ave.

99W/Pacific Hwy

Hwy 217

Tualatin-Sherwood Rd.

Hwy 43/Macadam

Sandy BJvd.

Task Force discussion & results, 5/15 & 5/29

Reviewing staff assessment

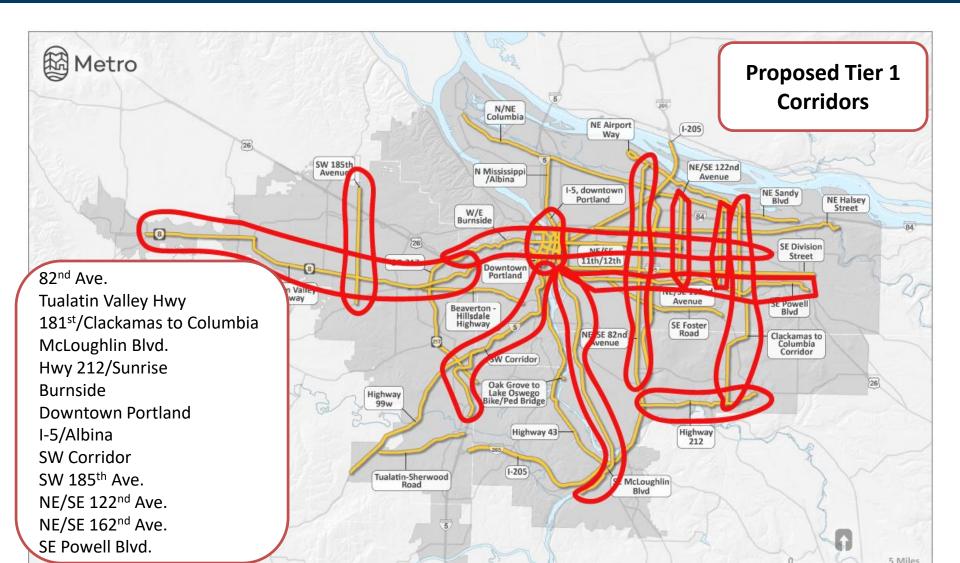

Climate potential scoring

Voting on potential corridors

No formal recommendation to Council

Proposed Tier 1 corridors

Proposed corridor: 82nd Ave.

Vision: A safe, inviting corridor that offers people more frequent and reliable transit service and an easier connection to Airport Way at the northern end.

Proposed corridor: Tualatin Valley Highway

Vision: A corridor where people can walk and bike safely between centers, where more people use transit that flows more smoothly, and where housing and commercial development is supported.

Proposed corridor: SW Corridor

Vision: New travel options and connections to get people to jobs, schools and other destinations more quickly and reliably.

Proposed corridor: McLoughlin

Vision: A corridor that provides safe passage for people walking and biking, and supports reliable travel for people taking transit and driving between town and neighborhood centers.

Proposed corridor: Burnside

Vision: A seismically resilient connection across the region, offering people reliable transit options and safe crossings throughout.

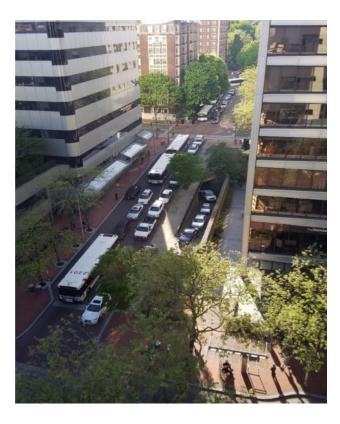

Proposed corridor: SW 185th Ave.

Vision: A complete street corridor with safe crossings and reliable transit service, and greater reliability for drivers and people who take transit.

Proposed corridor: Downtown Portland

Vision: A downtown that offers safety and reliability for all people, however they move through the city.

Proposed corridor: NE/SE 122nd Ave.

Vision: A safe, inviting corridor with frequent and reliable transit service.

Proposed corridor: NE/SE 162nd Ave.

Vision: A safe place for people accessing transit, housing and local businesses by foot, bicycle or vehicle.

Proposed corridor: SE Powell Blvd.

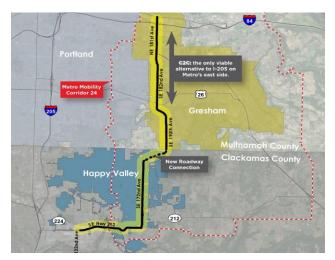

Vision: A complete corridor that better supports people who rely on transit and that is safe for people walking and biking.

Proposed corridor: 181st Ave. /Clackamas-to-Columbia

Vision: A corridor that connects growing communities to jobs, and address safety challenges along the corridor including safe crossing opportunities.

Proposed corridor: Sunrise

Vision: A corridor that provides increased access to jobs, greater reliability for drivers, and more transportation options for local residents.

Proposed corridor: I-5/Albina

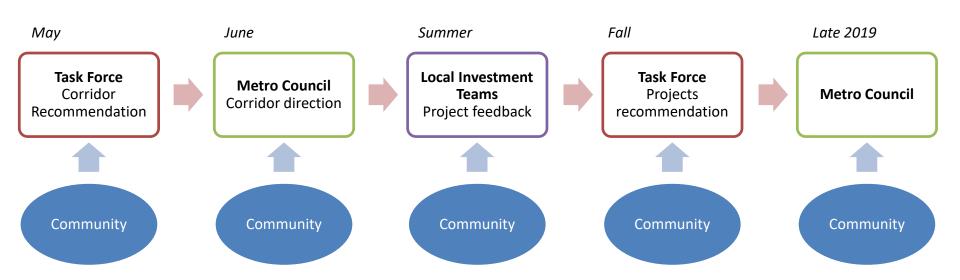

Vision: Lids and additional investments to improve community connectivity around I-5 and advance the Albina Vision.

Proposed Tier 2 corridors

NE Airport Way NE Halsey St. N Mississippi/Albina Highway 26/Sunset SW Beaverton-Oak Grove-Lake Oswego Bike/Ped Hillsdale Highway Highway 43/ Bridge N/NE Columbia Blvd. SW Macadam Ave. 99W/Pacific Highway Highway 217 SE Division St. **NE Sandy Blvd.** NE/SE 11^{th} - 12^{th} Ave. I-205 corridor SW Tualatin-SE Foster Rd. MLK/Grand Sherwood Rd.

Corridors: What happens next

Council Discussion

Are these the right priority corridors to proceed into project development, evaluation and identification?

Summer: Local Investment Teams & Corridor tours

June 19: Task Force meeting

July 30: Metro Council update
